- What else do I need to know? What can I consider changing in my state?
- What sessions can I attend during the conference to help advance this work?

12:00 p.m. Thank you!

Please Note: Participants in each of the infant and toddler-focused sessions will receive two post meeting surveys—the general feedback survey for the conference and one that is specific to the infant and toddler sessions and your infant and toddler work and support needs. We promise they will be short, but please complete them. We will use the feedback to guide future sessions and technical assistance.
